Joseph Adebayo

Biomedical Scientist

Leicester · 07700 900246 · joseph.adebayo@example.com · HCPC registration BS000000

Profile

HCPC-registered biomedical scientist with four years in a hospital haematology and blood transfusion laboratory. Runs and checks full blood counts, coagulation and blood grouping, crossmatches blood for theatres and the emergency department, and works on the out-of-hours rota. Completing the IBMS Specialist Portfolio in Haematology and Transfusion. Looking for a Band 6 specialist post.

Experience

Biomedical Scientist, *Soar Valley Hospitals NHS Trust, Leicester* **2022–present**

- Run and validate full blood counts, coagulation screens and blood films, as part of a team handling about 1,500 samples a day.
- Group and crossmatch blood for theatres, maternity and the emergency department, including major haemorrhage calls on the out-of-hours rota.
- Run sickle cell and thalassaemia screening for the antenatal clinic.
- Phone critical results to wards and record each call in the laboratory information system.
- Helped validate a new coagulation analyser against the old one before it went live, and wrote two of its procedures.
- Train new staff and students on blood film reporting and the transfusion procedures.

Trainee Biomedical Scientist (placement year), *Soar Valley Hospitals NHS Trust* **2020–2021**

Qualifications and training

IBMS Specialist Portfolio in Haematology and Transfusion, in progress **2027**

IBMS Certificate of Competence and HCPC registration **2022**

BSc (Hons) Biomedical Science, IBMS-accredited, 2:1, with a placement year **2022**

Skills

- Haematology analysers, blood film reporting and coagulation
- Blood grouping, antibody screening and crossmatching
- Laboratory information systems and quality records
- Method validation and writing procedures
