GDC 000000

Skills

- Rotary endodontics and apex locators
- Digital radiographs and intraoral scanning
- Treatment planning and consent conversations
- Clinical records software

Profile

Associate dentist, GDC-registered since 2022, with three years in a mixed NHS and private practice after dental foundation training. Sees about 30 patients a day for examinations, fillings, crowns, extractions and root canal treatment, and is building a private list in composite bonding and clear aligners. Calm with anxious patients and children. Looking for an associate post with more endodontic and private work.

Experience

Associate Dentist

Whitbeck Dental Practice, Sheffield · 2023–present

- See about 30 patients a day on an NHS contract with a growing private list: examinations, radiographs, treatment plans and preventive advice.
- Provide fillings, crowns, extractions and root canal treatment on molars, and refer complex cases with a clear letter.
- Give nervous adults and children longer appointments and explain each step before it happens.
- Plan composite bonding and clear aligner cases with photographs and written consent.
- Led an audit of radiograph quality that cut retakes from 9% to 3% across the practice.
- Support the practice's two trainee dental nurses.

Dental Foundation Trainee

Norton Green Dental Surgery, Rotherham · 2022–2023

Qualifications

BDS (Hons)

Charnwood University School of Dentistry · 2017–2022

Dental Foundation Training, completed

2023

CPD

46 verifiable hours in the current five-year cycle, including radiography and radiation protection, safeguarding, medical emergencies and a molar endodontics course (2025).
