Dear Mr Mackie

Application for the Shoreline Residency

I am applying for the Shoreline Residency. I am a painter and printmaker working with the Clyde estuary, and my solo show Low Water opened at Firthside Gallery this year.

During the residency I would paint outdoors at low tide along the Esplanade and make a series of screenprints that layer each painting with the tide table for that day, ending with an open studio and a print workshop for local schools.

I have run printmaking workshops for schools and community groups, including a three-month schools residency in Renfrewshire, so the public programme is a part I would plan from the start.

My CV and ten images are attached, as the call asks. Thank you for considering my application.

Yours sincerely

Isla Fraser
