Ms Morag Lindsay
Associate Director, Water and Drainage
Strathkelvin Engineering
200 West George Street
Glasgow G2 2PQ

Dear Ms Lindsay

Application for Senior Civil Engineer, Drainage

I am applying for the Senior Civil Engineer role in your drainage team. I have six years' experience in highways and drainage design at a consultancy, on schemes from £1 million to £25 million, and I am an ICE member working towards Chartered Engineer.

I led the drainage design for a £25 million town centre road scheme, from modelling through to sustainable drainage features, and agreed the design with the local authority and Scottish Water. I also write drainage and flood risk assessments for housing developments of 50 to 300 homes.

I supervise two graduate engineers and check their calculations and drawings before issue, and I visit sites during construction to answer queries. Your work on flood resilience for towns along the Clyde is the work I most want to do.

My CV is attached. Thank you for considering my application.

Yours sincerely

Ewan Fairley
