Sheffield S7 9XQ

Dear Dr Kerr

Application for Associate Dentist

I am applying for the associate post at Greystone Dental Practice. I am a GDC-registered dentist with three years as an associate in a mixed NHS and private practice since finishing dental foundation training in 2023.

I see about 30 patients a day on an NHS contract and have built a private list in composite bonding and clear aligners, planning each case with photographs and written consent. Root canal treatment is the work I enjoy most: I treat molars routinely and refer only the most complex cases.

Last year I led an audit of our radiographs that cut retakes from 9% to 3% across the practice, and I support our two trainee dental nurses. Your practice takes endodontic referrals from other dentists, which is why I am writing to you in particular.

I have 46 verifiable CPD hours in my current cycle, including a molar endodontics course in 2025. My CV is attached, and I would be glad to visit the practice.

Yours sincerely

Farah Siddiqui
