Bethan Rees

Paramedic

Gloucester | 07700 900237 | bethan.rees@example.com | HCPC registration PA000000 | Full UK driving licence with C1

Profile

HCPC-registered paramedic with three years on a frontline emergency ambulance after a paramedic science degree. Assesses and treats patients on emergency and urgent calls, decides with each patient whether they need hospital, and keeps a full electronic record for every patient. Looking for a paramedic post with time in urgent care.

Experience

Paramedic | Severnside Ambulance Service NHS Trust, Gloucester | September 2023–present

- Attend 8 to 12 emergency and urgent calls on a 12-hour shift as the lead clinician on a two-person crew.
- Assess, stabilise and treat patients in cardiac arrest, with sepsis, stroke, injuries or breathing difficulty, using the defibrillator and giving medicines within paramedic guidelines.
- Decide with patients, GPs and the clinical hub who needs hospital; on urgent calls about a third of patients are treated at home or referred to other care.
- Check the vehicle and kit at the start of each shift, and complete an electronic patient care record for every patient.
- Mentor two student paramedics on placement each year.

Student Paramedic placements | Severnside Ambulance Service, an emergency department and a maternity unit | 2020–2023

- More than 1,000 hours on placement, including two births on the maternity unit.

Qualifications and training

BSc (Hons) Paramedic Science, 2:1, an HCPC-approved programme | 2023
